

18:42:37 From Jesus Guillen : HUGS to everyone, glad to see you all. HIV and AGING/HIV LONG TERM SURVIVORS international network.

18:55:38 From Jesus Guillen : I am amazed about the LATINO community, and I've been reading about our community. We should not approach them as USA wants to, but as LATINOS want to and need to. WE ARE NOT LATINX, only the young population in USA likes that, but LATINOS should be approach as LATINOS, and even more, as 20 different cultures. I want to be more involve in this task force to help Latinos, if you allow me.

18:59:31 From Jesus Guillen : Why haven't we had more interest in the correlation of HIV and COVID19, if even there was a vaccine project for HIV based in corona virus?

19:05:08 From Jesus Guillen : Was there a real vaccine for HIV based in corona virus?

19:05:46 From Andrea Leon : Do we know anything about how access to HIV medication has changed for low-resources communities in Latin America?

19:06:51 From BALIF Administrator : Just a reminder to everyone, I will be sharing the slides which will have contact information for all the speakers. I will also share this chat box for any links or information that is posted here.

19:07:17 From Jesus Guillen : Hello ANDY!!! Love, I am incredibly concern, based in our journey with surviving with HIV, about the STIGMA already showing up in people surviving COVID19....or being sick with COVID19. Is there anything already done about it in preparation for it? Based in GETTING TO ZERO, many successes but failed in STIGMA related issues.

19:09:52 From Jesus Guillen : I did a survey in our community of HIV LONG TERM SURVIVORS, and at least 50% of them, felt that the HIV/AIDS agencies have NOT been checking on them....or simply calling them to check if they are alive....Many times, is not about a client calling, but the agencies and organizations calling to check in the clients...

19:11:16 From Jesus Guillen : Is Magnet back in checking in a more normal way STD's, etc? SEX keeps happening almost as normal...

19:11:58 From Andy Scheer : <https://www.sfcityclinic.org/covid-19-faq>

19:12:42 From Jesus Guillen : If what you're saying is true about regular checking on STD's, etc...then, we need to share this information more widely....the last word, was that STD's, and regular diseases checking have been stop....

19:17:08 From Doug McManaway : I have to drop off a little early but thank you for the very helpful information! great panel.

### HIV and COVID Forum- Chat from Zoom

From Jesus Guillen : Question to everyone, we know by now that the bureaucracy of HIV/AIDS had increase at high levels, including elements like, for ADAP to check status twice a year/ I really would love to suggest to minimize bureaucracy for paperwork based in HIV/AIDS. The economic status, and health status, especially right now, is not changing much. PLEASE suggest this to your colleagues....

From Jesus Guillen : this extension is not much....we need more adjustments...minimize this bureaucracy. IT IS IMPORTANT!

From Andy Scheer : We love EAHP!!!

From Negin Mohajeri : 415-777-0333 ask for Kalli leal

From Jesus Guillen : SUPER IMPORTANT: Please support what Dr. Marcy Adelman is doing to get better mental health TELEMEDICINE. THIS IS OF HUGE PRIORITY

From Jesus Guillen : Suggestion, the same way Andy say to clients to be PROACTIVE, calling your doctors, agencies and organizations; I will say, to agencies, organizations and so....BE PROACTIVE and call your clients, check on them, the mental health has been deteriorating in many or our brothers and sisters, as well as physical issues. THIS IS VERY IMPORTANT, a simple phone call, can make a huge difference in the well being of our family, but we also can check in the present needs, right now is A LOT OF UPDATING things like ADAP/HOPWA/ETC.

From Jesus Guillen : LOVE YOU BILL!!!

From Jesus Guillen : Yes, Thanks everyone, great job.

From Jesus Guillen : According to bad management companies, if they find ways to consider you a nuisance, they can get away with evictions.

From Alfredo (He/Him) : how can ALRP help with immigration issues?

From Alfredo (He/Him) : thank you for such great information! you are all amazing.
